' @ CA PS 1 are you reading ' asked mom . I im media tley hid the book behind my back , knowing she wouldn ' t like the idea of me reading such an in depth book . Some parent don ' t like for their kids to read some content . If it ' s not okay at home it shouldn ' t be okay at school . There is some subjects that maybe we shouldn ' t but we do because our parents say no . Re mo ving said subjects will remove the chance of di so bey ing or parents , and cop ing be ha vor from book . There are books , movies , magazines and music that is ' cool ' , but not all that appropriate . Some movies and music use offensive language and actions that some kids pick up on and re fe l ct actors , actresses and artists . Soon they start making a name for themselves by using such language or actions and eventually becomes known as the bad kid . Most things students model after are the things they see , hear , or watch , such as the media . It is wise to set c ens ors in the libraries , for students . Though some students don ' t ne ssi cea rily want censorship in libraries , it is only for their best in tres t to remove materials that are offensive . It will make students including myself better people by not learning of the things we hear about or watch . I think by using censorship it will help student to make the de cis on at home to to become involved in such thing . I have noticed that students often watch how movie stars and famous people act , if they are a fan or the famous person then they are more like y to model after them and do the thing they do . Let s say I was a fan of @ P ER SO N 1 and I read that she stole something . Being a fan of her I would either find someone else to model after or do as she does because it cool . If I did the things @ P ER SO N 2 done my parents would most likely kill me , and if I got luck somehow and they didn ' t then I would go to jail for sure . So in conclusion , I think censorship is important in l ib rai res because it ins ures the well being of students and protects them form things they o dn '
