Prompt

Write a persuasive essay to a newspaper reflecting your vies on censorship in libraries. Do you believe that certain materials, such as books, music, movies, magazines, etc., should be removed from the shelves if they are found offensive? Support your position with convincing arguments from your own experience, observations, and/or reading.

Essay

The @ CA PS 1 Materials Have you ever came a c roo s a book that you thought was really good , but knew it might show certain offense to someone you know . My censorship on materials that show offense in libraries is they should not be taking off the shelves . People should have the r own choice of books , and who has the right to tell someone what they should read . My opinion is that materials that @ M ON TH 1 be offensive to certain individuals should not be taking off the shelf , but put in a certain section that says adult material such as books , music , movies , etc . . I myself have experienced not being able to get a certain movie because of my age . The book was called @ CA PS 2 @ P ER SO N 1 , but it was just full of action / adventure . This was very unfair in my eyes , just because I was young I couldn t check out a certain movie . This was experience that I been through , which lead me to my opinion that materials that might show certain offense to someone should not be removed . Another reason that the materials should stay on the shelf is because many people like different things . No one is going to have the same interest all the time . So by ta kin y materials away is just helping one person , but hurting many by taking some thi m g they @ M ON TH 1 be interested in . I can understand that people have been through things , and might not be happy that offensive materials are around . Then again I think all materials are not the same they can get the materials they enjoy , and leave the other materials up to other people to choose from . In conclusion I believe that the materials that show offense to certain people should stay . The reason being is because by the material that might show offense to an individual , might just be very interesting to another person . This a saying I heard before from the e bon y magazine , ' another person junk @ M ON TH 1 be someone else treasure ' which I believe is a good saying for this topic
