Prompt

Based on the excerpt, describe the obstacles the builders of the Empire State Building faced in attempting to allow dirigibles to dock there. Support your answer with relevant and specific information from the excerpt.

Essay

The Empire State building is known as the worlds tallest building. The building is located in New York. Al Smith the head of building the Empire State building, added a top or a hat to the building, that made the building be even more distinctive than any other building in the city. The Empire State building was equipped for transportation. The transportation was dirigible, or zeppelin. The Empire State building had a mooring mast at its top for docking the new airships. An obstacle that the Building faced was New York's lack of a suitable landing area. Al seen an opportunity to get people to and from the Empire state building. Al seen it as something creative and new. The mooring mast of the Empire State Building was never fulfilled. No thought of safety was thought about before constructing the idea either. The greatest reason was most dirigibles from outside of the United States used hydrogen rather than helium which is a higher @CAPS1 for flames. Also nature itself was a big problem the idea had safety problems and couldnt @CAPS1 flames in Downtown New York
