Prompt

Write a letter to your local newspaper in which you state your opinion on the effects computers have on people. Persuade the readers to agree with you.

Essay

Computers definitely have a positive impact on society. They help organize your thoughts, which stress. So, they contain many inspirational articles which can convince kids to strive for surless. Lastly, when all else fails, the computer can be a great way to relax and clear your mind. Computers help organize your thoughts, which helps reduce stress. Imagine you working on a project in school. Everybody can add to it, and you can selectively choose which additions you want. In addition, you @MONTH1 also block the programs that you don't want. This device is called the computer, and it's changed @LOCATION1's society for the better. On average, @NUM1 out of @NUM2 @CAPS1 suffer from stress. Now if you organize your thoughts on the computer, and are able to look through them again at why a huge alleviated. Instead of worrying thoughts you @MONTH1 or @MONTH1 not remember, you now have confidence that you can look back and find your thoughts right on your @CAPS2. Reduced stress trading to confidence effect on society. Also, the computer contains articles that @MONTH1 insure our children to strive for their goals. Once child read an article @PERSON1, @ORGANIZATION1 book. As an @NUM3 using @PERSON1 as well in school. By games, I observe how into @CAPS3 since I started seeing @PERSON1 as role model to me, high making a stride for a @CAPS4.O @CAPS5. Where did this inspiration come from? Researching @PERSON1 on the internet. The internet, in this instance, obviously had a positive impact on @CAPS6 society. Lastly, when all else fails, you can rely on the computer to make stressful situations seem less overwhelming. If you have the ability to solve a problem, then why can't you solve it? Often times, the answer to this question is that the situation is too overwhelming. If you take a break go on you @MONTH1 relax simple games put out a variety of websites. Now say you came back and attack the problem again. You continually chip ...
