Prompt

Write a letter to your local newspaper in which you state your opinion on the effects computers have on people. Persuade the readers to agree with you.

Essay

Dear Newspaper, i am writing you this letter, about computers, in the hope that you will publish it. Over @NUM1 the people in @LOCATION1 has a computer, but are they really healthy? I don't believe computers are a good thing. People spend to much time on them & less time excirsing, enjoying nature & most of all, it's highly dangerous. I don't believe computers are a good thing because people don't excersise like they did. Some people spend @NUM2 out of @NUM3 hours in a daw on computers for others it's there whole life. People spend so much time on computers they lose touch with the outside world. Ever since computers came out, obesity has gone up. all people do is chat to other people & think "they don't have to know what I look like."They sit at the computer eating & eating. That's not healthy. I dont think computers are good also because they spend less time enjoying nature. It used to be when I had somoe free time, I could call up a friend & ask them to take a walk with me somewhere & they'd say "sure! Now they say "@CAPS1 get on the computers & we can take a virtual walk." That's not the same as an actual walk with the wind in your face the fresh smell, & all the animals, at least not to be. Nature is a thing of beauty & if you don't enjoy appreciate it, it'll turn into something hideous. Nature used to be the most peaceful think now it the internet. I dont think computers are good because most importantly they're dangerous. Little kids, like myself, think they're grown up & go on computers & meet rapist, murderer, thieves, all kids of criminals. Also people send hurtful & violent things to each otehr & it yo're on the computer alot of bad people can track you down. Also, the military & @ORGANIZATION1 keeps secrets on computers but if your smart enough you can hack it. Computers aren't safe for anyone or anything. Well, I've told you my main @NUM4 reasons why I think computers aren't such great things, they're no...
